

HD-UF20BB-AF

Applicable Water quality: Tap water

Applicable place: Tea stores and restaurant

Product Advantages

Using German medical grade ultrafiltration raw materials.

Ultrafiltration membranes are certified by NSF in the U.S. for high safety and reliability

Fully automatic backwashing function to extend the life of ultrafiltration

Internal flushing fittings, made of 304 stainless steel

Product Specifications

Model	HD-UF20BB-AF
Pore size	0.1-0.01 um
Working temperature	5-38 °C
Product Dimensions	L449*W210*H696 mm
NSF Standards	NSF42
Removal of contamination	V
Removal of colloids	V

Flow	60LPM
Working pressure	15 - 60 psi
Inlet/outlet	3/4"
MOH certification	V
Remove sediment rust	V
Remove turbidity	V
Removal of microbes/bacteria	V
