

MRO800C/1200C/1600C

Applicable water quality: Tap Water

Applicable place: Specialty Coffee shop, Tea shop, Dining room

Product Advantages

Adjustable outlet TDS value

There is a display screen, and the operation status of the equipment can be seen at a glance.

WIFI function optional, chain headquarters can monitor data remotely

It can be placed under the work desk to save space.

Model	HD-MRO800C/1200C/1600C
Recovery rate	55%
Working pressure	15 - 60 psi
Rated voltage	100-240VAC
Interface Dimension	1/2" -3/8" -1/4"
Automatic rinse	V
Display screen	Filter life reminder
Display screen	Fault reminder
Pre-filter element 2	Ultrafiltration filter
MOH certification	V
Removal of contamination	V
Remove taste & odor	V
Remove turbidity	V
Remove scale	V
Improve the taste	V

Flow rate	2LPM/3LPM/4LPM
Pore size	0.0001um
Working temperature	5-38 °C
Rated power	120/150/240W
Product Dimensions	L500*W351*H855 mm
WIFI function	apolegamy
Display screen quality	TDS monitoring of water quality
Pre- filter 1 composite filter	PP Activated Carbon
filtration technology RO membrane *2	400/600/800 gallon integrated
Remove sediment rust	V
Remove residual chlorine	V
Remove organic compounds	V
Remove heavy metals	V
Reduce & regulate TDS	V
Remove bacteria	V
